Dear Sir or Madam,

With this letter, I would like to express my interest in taking part in your Summer Analyst programs. My name is Aida Ramezani, and I am currently in the third year of my studies at the Sharif University of Technology, Department of Computer Engineering and I do hold a deep interest in data science and machine learning with a goal to devote my professional career towards understanding them.

During my studies, I have worked with a variety of data science tools including R packages and TensorFlow and Keras, and I have been trained in academic courses including Data Analysis and Probability and Statistics. Consequently, I firmly believe that I will be able to cope with the requirements of your summer program.

I would be captivated to participate in your program since it is such a place that I hope to join as an undergraduate student. In that line, It is quite evident that the experiences gained, both by the hands-on experience on topics of my interest and by the guidance of leading experts in the area is so invaluable for me and my future endeavors.

I would highly appreciate being one of the selected participants and I look forward to hearing from you. Please do not hesitate to contact me if you have any questions.

Sincerely,

Aida Ramezani
